

SINGAPORE SHIPPING ASSOCIATION

Ref: SSA/089/10/EML

17 May 2010

To: All YEG Members

YEG EDUCATIONAL TALK & NETWORKING SESSION - 8 June 2010

The YEG Educational Sub-Group is pleased to invite Mr. James Atkinson, a derivatives practitioner at Norton Rose (Asia) LLP, to speak on ***"The use of derivatives to hedge the various commercial risks faced by the shipping industry"***.

As one of the key links in international trade, the shipping industry has been particularly exposed to the volatile conditions seen in the global business environment over recent years. Derivatives offer shipping operators an important means of managing the commercial impact of volatility in, for example, freight, bunker and foreign exchange markets.

In his talk, James will explore the various derivative instruments commonly used to manage such risks and will discuss some of the recent legal and commercial issues that have arisen in relation to their use.

Date: 8 June 2010 (Tuesday)
Venue: Singapore Shipping Association - Maritime Lounge
59 Tras Street, Singapore 078998

(Please note: Due to space constraint, this event is limited to 45 participants. The event organisers may choose to move the event to a bigger venue. We will keep all registrants notified by 4 June 2010.)

Registration is **free** for all YEG & SSA members, but each YEG/SSA walk-in and no-show registrant will be charged \$20 (includes GST). Non-SSA members will be charged \$30 each. In order to allow as many companies as possible to participate, priority will be given to the **first two** registrants per company. Subsequent registrants from the same company will be put on a waiting list and would be offered the remaining seats, if there are any, after the deadline.

To register, please complete the attached registration form and return it to the SSA Secretariat by email to registration@ssa.org.sg or fax to **6222 5527** no later than **Friday, 4 June 2010**.

We look forward to see you at the event!

Best regards,

GINA GOH
Executive Officer, Corporate Communications
