

**Capt. Satinder Singh Viridi**

Capt. Satinder is Senior Lecturer and Course Manager in Singapore Maritime Academy, (SMA) Singapore Polytechnic. He has been associated with maritime industry for more than 28 years, including 15 years of sailing experience. His area of specialization includes safety and operations of oil and gas tankers, ECDIS and Electronic Navigation Systems.

Apart from commanding various Tankers in the worldwide merchant fleet with various ship owners, he holds Bachelor of Engineering as well as M.Sc. in Safety, Health and Environmental Technology, with specialization in Process Safety.

He has been involved in training Marine and Technical Superintendents, officers and cadets for the last 13 years and works actively with 'Maritime and port Authority of Singapore' for implementation of training as per STCW convention. He is also Technical Assessor for Cargo operations under Spring Singapore and represents SMA in SSA Marine Fuels Committee. He is also conducting the training for shipboard officers engaged in LNG Bunkering as per SS: TR56 standard.
