Taking 'Men' Out of Mentorship An Unintended Outcome of the #MeToo Movement?

We would like to invite you to join our panel discussion on 29 April 2019, hosted by the Women International Shipping and Trade Association (WISTA), in conjunction with the Young Executive's Group of the Singapore Shipping Association (SSA YEG). WISTA has consultative status with the International Maritime Organisation (IMO), and is excited that IMO's theme for World Maritime Day 2019 is "Empowering Women in the Maritime Community". What "empowerment" means is a tricky subject indeed – we will be exploring whether mentorship has been compromised by the backlash of #MeToo movement, what both male and female leadership mean, and what we can do better as a community.

SSA comes with over 30 years of distinguished service to the shipping Industry in Singapore and its voice for the industry has enabled it to develop itself as a trusted advisor for shipping related matters. SSA long believes and uploads not just gender equality, but merits in its ranks with women holding key roles in the Association's very flat organisation structure and council board. SSA actively supports WISTA and are proud to have been able to collaborate on various events in the past. SSA continues in Navigating the Future as we proactively seek out women for key leadership positions.

The session will be jointly moderated by Sue Ann Gan from Norton Rose Fulbright and Michelle Yong from Stephenson Harwood LLP.
