Dear SSA Members

You are warmly invited to the Singapore Shipping Forum 2019: *Current Shipping Developments and Green Shipping*, held on 11 April 2019, at the Westin, Singapore from 9.00am to 1.45pm. This seminar, proudly hosted by Moore Stephens LLP and BNP Paribas Singapore, is held in conjunction with the Singapore Maritime Week and supported by the Singapore Shipping Association ("SSA"). Besides attending the seminar, which promises insightful exchanges with prominent shipping industry veterans, analysts, and financiers, this event is inclusive of a post-event lunch networking session that offers valuable opportunities to connect with financial and shipping industry veterans.

As in previous years, this year's seminar aims to provide updates, views and insights on critical economic, industry and market developments, which will be shared by industry experts from Bloomberg and Clarksons Platou. This year, being the final year before IMO 2020 rules take effect, the seminar will also cast additional spotlight on shipping environment issues. Speakers from the International Chamber of Shipping will discuss new environmental regulations, such as those on carbon and sulphur emissions, offering insights into regulatory developments, industry' compliance readiness and other aspects. Veteran ship financiers from BNP Paribas will touch on financing solutions for such new regulatory expenditures, explaining the intricacies, and sharing success cases. Shipowners will also share their views on these
