Lloyd's List Quarterly Outlook Edition 2

The Lloyd's List Outlook is our new quarterly report covering each of the core shipping sectors with an in-depth view of the competing dynamics at play and an insightful take on the key trends, drivers and challenges across the market

Highlighting the five key trends and most significant risks in the core shipping sectors, the latest edition of the quarterly outlook report presents a concise view of the forces shaping the shipping industry in the coming year including external factors such weather, strikes and Donald Trump all of which have resulted in underperformance of freight markets.

1. Indicated freight earnings levels in the main shipping sectors, as suggested by our quarterly survey
2. External and inherent financial and sectorial risks that could derail your maritime business
3. Essential readings on what to look out for in law, marine insurance and regulations

This report should be considered required reading for anyone looking for an authoritative view on near-term market trends. It's a service that Lloyd's List readers have been enjoying for some time now, but this new regularly updated report, is now available to non-subscribers, offering an invaluable take on the key drivers and challenges across the maritime market.
