About AMLIC 2018

The Asian Maritime Law & Insurance Conference brings together key players and well-known names from the marine insurance and legal market. The various panelists will bring together thought leadership by discussing key issues of concern to the industry such as the role and interest of major stakeholders in the aftermath of a major casualty, the necessity for insurance law reforms in Singapore, recent developments in the law on fraudulent claims, the future of Singapore as an international dispute resolution centre, the impact of missing ship records, fire investigations and lessons to be learnt, the implications of sulphur emission regulations, and the different views taken on policy wordings and legal concepts in different jurisdictions.

Topics to be discussed include:

- Salvage and Wreck Removal
- Insurance Law Reforms
- Fraudulent Claims and Collaterals Lies
- Same Region, Different Rules
- Missing Ships Records
- Fire Investigation And The Lessons That Can Be Learnt About Prevention

Who Should Attend?
