Date: 17 April 2020

Dear Members,

### **Complimentary Learning and Development Resources From IMarEST**

The Institute of Marine Engineering Science & Technology (IMarEST) is offering free learning and development resources to all our members. There are more than 70 online videos, conference proceedings of six international conferences, more than 20 reports covering different topics, and an online module on the introduction of hydrography. The topics and the links are appended below.

- **Free E-Learning Course:**
  - Introduction to Hydrography - <https://www.imarest.org/events-courses/training-courses/hydrography-course>
    - A 2.5 hours online course with 6 modules covering the basics of hydrography
  - Introduction to Professional Development - <https://www.imarest.org/events-courses/training-courses/professional-development-course>
    - 3 short clips which explains the idea of professional development, registration, and how these will help one's career development
- **New on IMarEST TV**  
([https://www.youtube.com/playlist?list=PL7Ai\\_CMMIY5aze\\_EYsAkrZdBVHyudX\\_4y](https://www.youtube.com/playlist?list=PL7Ai_CMMIY5aze_EYsAkrZdBVHyudX_4y))
  - A collection of more than 70 video lectures and presentations on various topics given by IMarEST members and partners across the world.
- **IMarEST Conference Proceedings** (<https://www.imarest.org/conference-proceedings>)
  - A collection of IMarEST's conference proceedings in the past few years
- **IMarEST Publications & Reports** (<https://www.imarest.org/reports>)
  - A collection of 20 reports prepared by IMarEST covering various topics from autonomous shipping to addressing the skills and training shortages in the shipping industry.

Please direct any queries or requests for more information on the above free resources to [andrew.wong@imarest.org](mailto:andrew.wong@imarest.org)

Thank you.
