1.1 Letter from our President

From the desk of the President

I am delighted to have the pleasure of inviting you to join the Singapore Shipping Association (SSA).

SSA was formed in 1985, and has since provided years of service to the maritime industry in Singapore. We have developed a strong membership base comprising Ordinary, Associate and Start-up categories with member companies from across the entire shipping industry and beyond.

The Association strives to enhance vibrancy in the shipping community and aims to propel the shipping industry and allied maritime sectors forward through offering the outreach as well as access to a global network of maritime companies and organisations.

To navigate the future of the maritime industry, member companies are given the opportunity to be part of the Association's committees and working groups, namely,

- Digital Transformation
- International
- Legal & Insurance
- Marine Fuels
- Offshore Services
- Services
- Technical
- Shipping Finance Services

- Young Executives Group

Such participation add to the collective voice of the maritime industry through the sharing of views and expertise. This is done alongside close engagement with government agencies, impacting and informing regulatory policies that in turn affect the maritime industry.

Members also receive exclusive invitations to networking and social events organised throughout the year and are encouraged to participate in talks and seminars that cover industry hot topics and inform members of the latest industry developments.

You will be pleased to note that members enjoy exclusive rates when attending shipping-related courses conducted by SSA under its Executive Development Programme. A summary of courses is available on our website. As an additional benefit SSA members can enjoy competitive rates when obtaining war insurance cover under the Singapore War Risks Mutual (SWRM).

Our secretariat stands ready and willing to assist you should you have further questions.

I look forward to welcoming you to SSA!

Caroline Yang
President
Singapore Shipping Association

2.1 Overview: Singapore Shipping Association

Singapore Shipping Association (SSA) represents a wide spectrum of shipping companies and other businesses allied to the shipping industry. It is a national trade association formed in 1985 to serve and promote the interests of its members and to enhance the competitiveness of Singapore as an International Maritime Centre.

To achieve its objectives, SSA engages and collaborates with key stakeholders in the shipping industry and is a trusted advisor and partner to related government agencies. SSA is also actively involved in promoting the interests of Singapore's shipping industry, internationally.

Currently, SSA represents over 500 member companies, comprising of shipowners and operators, ship managers, ship agents, and other ancillary companies such as shipbrokers, classification societies, marine insurers, bunker suppliers, maritime lawyers, and shipping bankers amongst others.

To enhance the vibrancy and further grow the maritime ecosystem, the association has expanded its membership to include technology start-up companies, as part of its strategy to promote digitalisation within the industry.

2.2 **Our mission**

As an Association

SSA protects and promotes the interests of its members. It undertakes activities on maritime matters which are relevant and beneficial to its members.

SSA also strongly supports the training and development of its members' employees by providing an array of industry-relevant training courses through its Executive Development Programme.

For the Industry

SSA takes the view of the global maritime industry in entirety through its role in promoting the interests of shipping in Singapore and the rest of the world. The association co-operates and actively engages other maritime organisations both locally and globally in key trends and new regulations of the industry.

For Singapore

The Association works closely with the Government of Singapore to protect the extensive interests of the Singapore maritime industry, and to promote Singapore as a key International Maritime Centre. SSA provides a platform for its members to actively participate in events, forums, committee meetings and work groups sharing their collective subject-matter expertise, and drive key issues relating to Singapore's maritime sector.

For International Shipping

SSA co-operates with government and non-government organisations to promote freedom of navigation and safety at sea and to protect the marine environment.

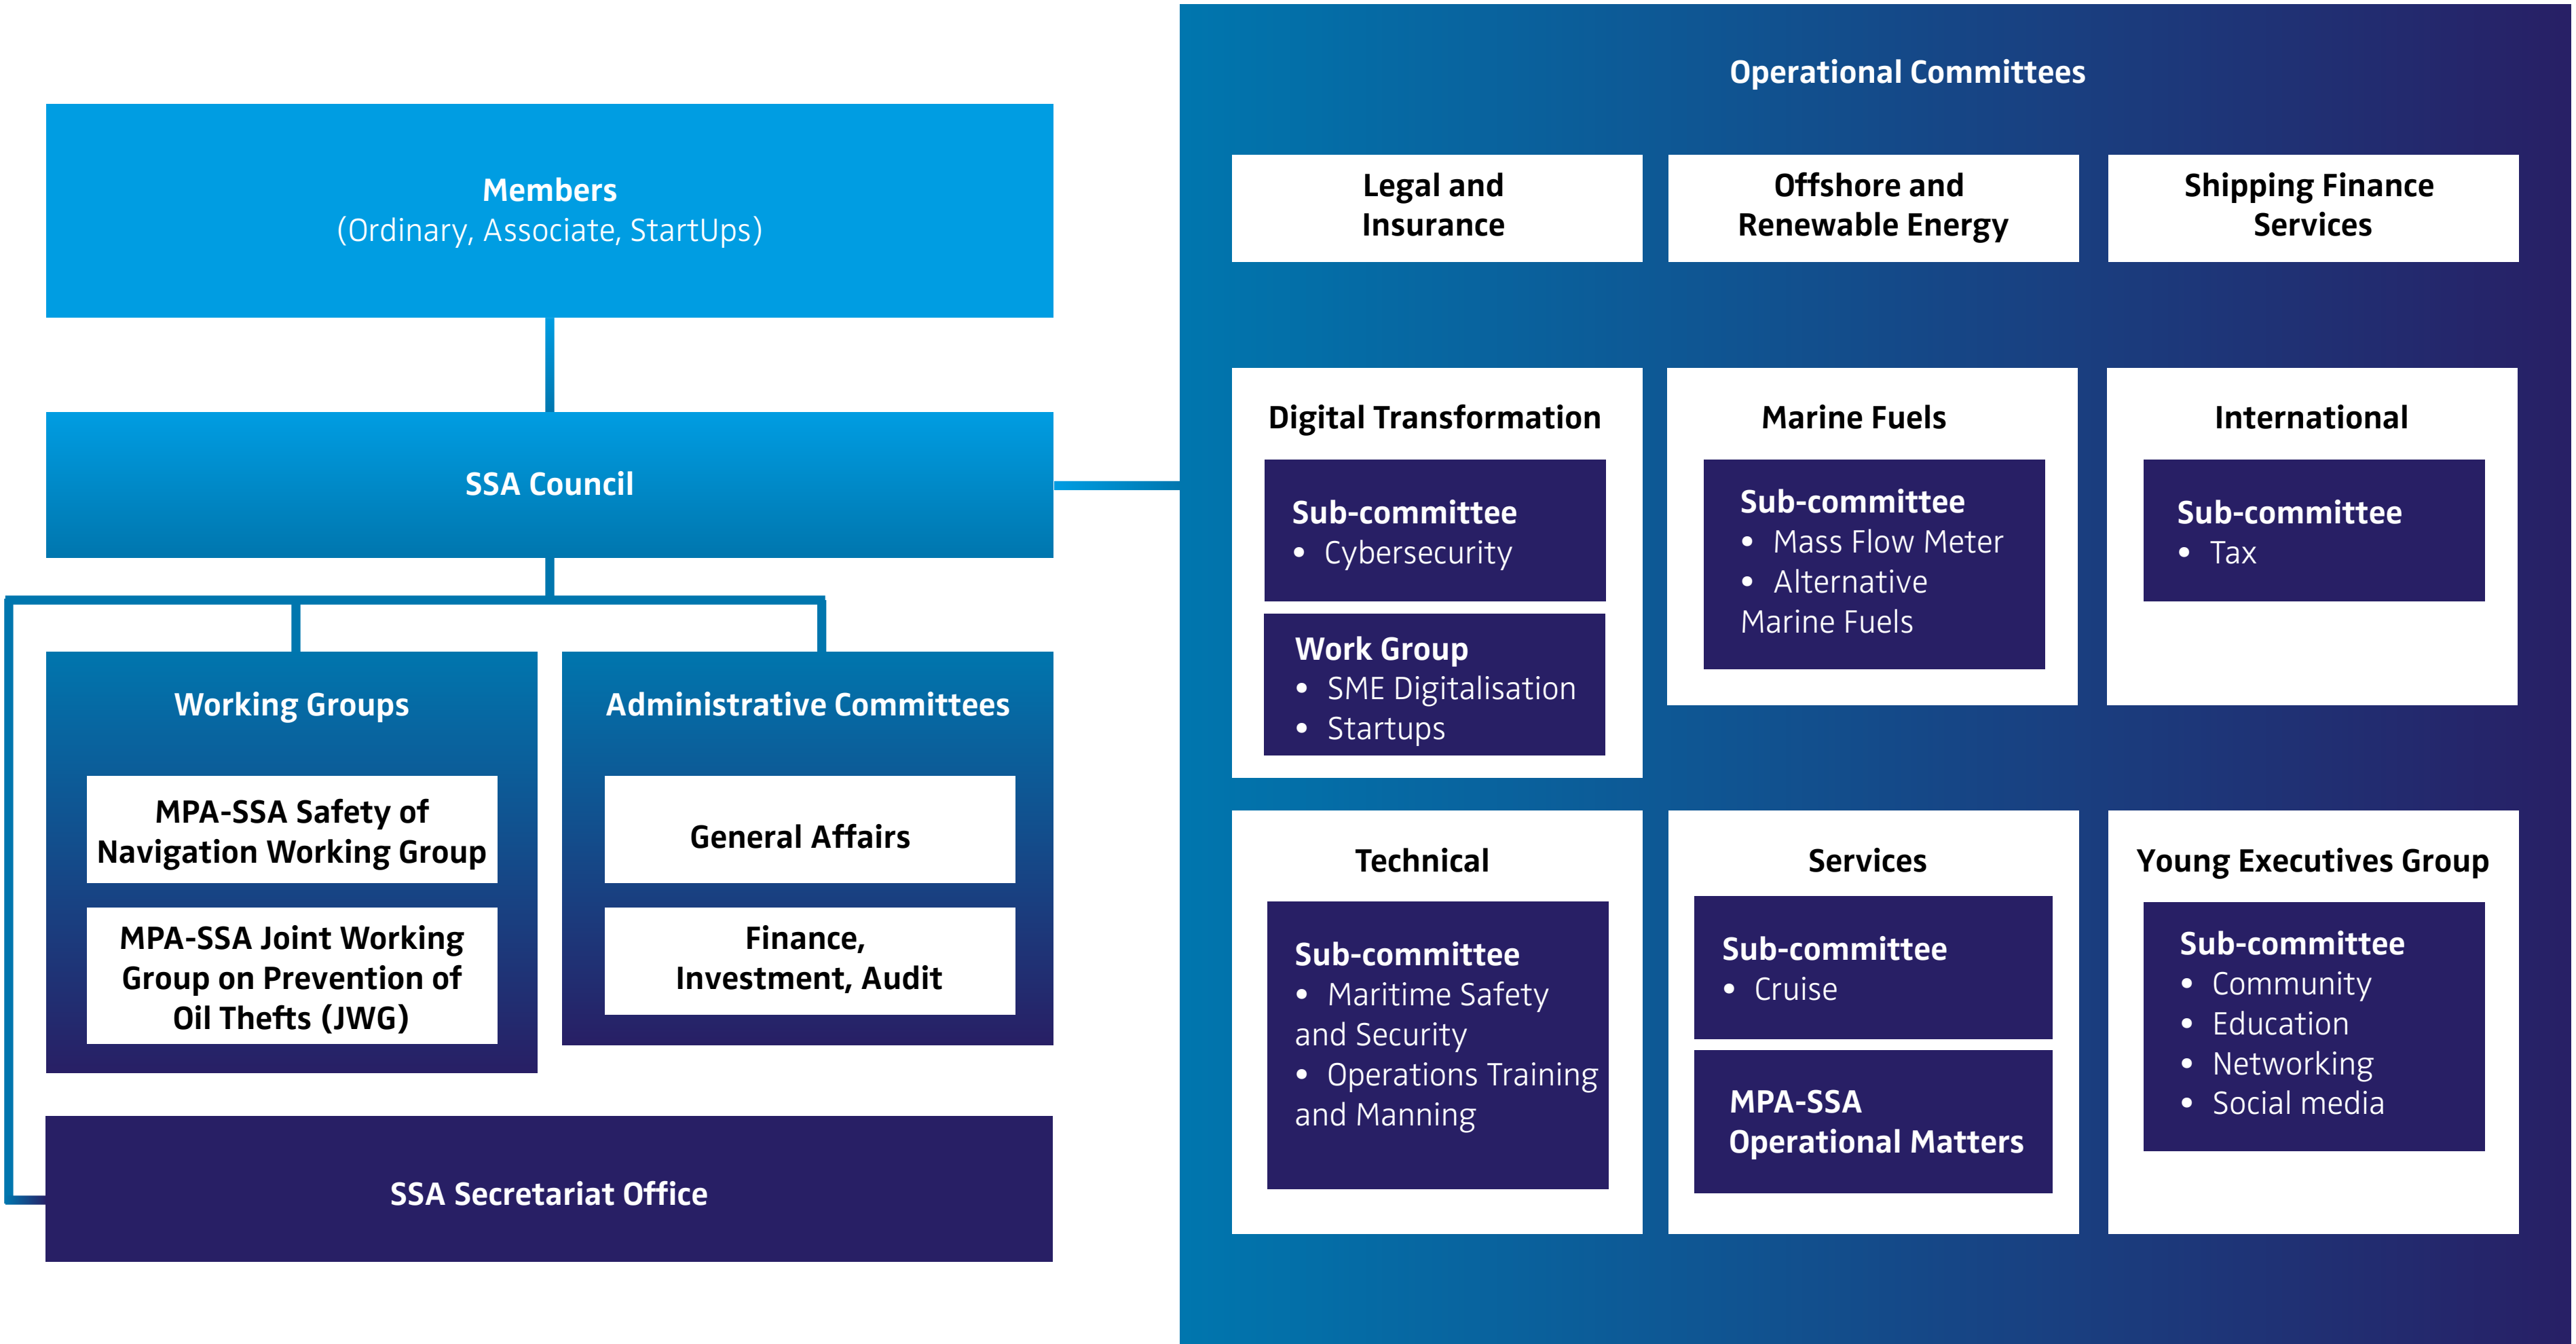

2.3 **Affiliations**

The Singapore Shipping Association is a member of the following organisations:

- Asian Shipowners' Association (ASA)
- Federation of ASEAN Shipowner's Association (FASA)
- International Chamber of Shipping (ICS)
- Singapore Business Federation (SBF)
- Singapore Chinese Chamber of Commerce and Industry (SCCCI)

2.4 Organisation chart

3.1 Overview: SSA committees

As an Association, we strive to advance the interests of our members and enhance Singapore's competitiveness in the international shipping world. We encourage member companies to take an active role in our various operational committees and working groups, where together we can develop well-rounded positions that will help navigate the future of Singapore's maritime industry towards success.

3.2 Our committees

Digital Transformation Committee

The Digital Transformation Committee aims to generate awareness among SSA members of relevant technology developments that inspire and facilitate support the digital transformation of members' businesses through education and outreach.

Marine Fuels Committee

The Marine Fuels Committee addresses the national government's policies, affecting the marine fuels operation in Singapore. The committee also evaluates and recommend procedures to improve the efficiency of the marine fuel operations to promote Singapore's reputation for high standards for marine fuel operations.

International Committee

The international Committee works with the national government on policies affecting international shipping and trade, while maintaining relations with international shipping bodies to promote mutual interests, benefiting international shipping and trade.

3.2 Our committees

Legal & Insurance Committee

The Legal & Insurance Committee reviews new or proposed international conventions and regulations which have significant impacts on Singapore ship operators. The committee also highlights the potential effects on SSA members and proposes recommendations to the adoption by Singapore.

Offshore & Renewable Energy Committee

The Offshore & Renewable Energy Committee focuses on both domestic and international policies, affecting the offshore marine industry. The committee also aims to educate members on the rising trend in the renewable energy market, and enhance Singapore’s reputation as a hub for the offshore & renewable energy sector.

Services Committee

The Services Committee focuses on national government’s policies affecting shipping operations in Singapore and coordinate with other local industry organisations to maintain Singapore’s reputation as the international maritime hub. The committee also encourages sharing of the latest shipping developments and trends for the benefits of shore-based personnel.

Shipping Finance Services Committee

The Shipping Finance Services Committee actively promotes and develops financial services within the shipping industry in Singapore as part of SSA’s support for the development of Singapore as a competitive International Maritime Centre.

Technical Committee

The Technical Committee addresses the technical aspect and its implications on issues and proposals of various government bodies locally and internationally, such as International Maritime Organisation (IMO), which affect the shipping industry.

Young Executives Group Committee

The Young Executives Group (YEG) focuses on developing future maritime leaders through educational, networking and community events. This provides a platform for young executives to enhance their professional and personal development and build connections.
